90% Hands-Off Formula To A Highly Profitable Income Online

Hey it's Mark Monciardini here.

I created this handbook to give you a simple step-by-step formula for creating a highly profitable business online.

Thousands of others have followed the EXACT steps in this handbook and went on to have huge successes. I've created my own success following these principles and now **I want to give them all to YOU.**

Of course I can't guarantee results but I CAN promise that this will be some of the most valuable information on creating a hugely profitable online business... **in your spare time!**

A little more about me. I started on the internet as a graphics designer. I had some success but it was mostly a constant struggle. Our house eventually went into foreclosure and I ended up with \$250,000 in debt and \$75 in my bank account. With a wife and 3 year old child my back was against the wall. I finally broke down and started scouring the internet for help because I knew there had to be a better way.

This handbook is the EXACT formula I used to help me get out of the rut and it's allowed us to live anywhere and do what we want. I'm so confident this works and I'm giving you the same steps you need to know to become a rock star online... **STARTING TODAY!!**

90% Hands-Off Formula To A Highly Profitable Income Online

Step 1

After 3 plus years of trying almost everything under the sun, having setbacks, creating large amounts of debt and sacrificing time with my kids... I can absolutely say that I've found a simple business model that works extraordinarily well for ordinary people. **So let's skip all the fluff and dive right in...**

Choosing the Right Business Model

Most of us have a limited amount of time, so you need a business model that is highly profitable that you can do in your spare time. You only want to do the work **ONCE** and then have it generate income for you over and over!

**Your business
must be 90%
hands-off**

IMPORTANT

**With Freelance Digital Marketing
Here's what you WON'T need to do:**

- No products to make or stock
- No sales calls to make
- No customers or clients to deal with
- No piles of inventory to keep
- **No support or refunds to handle!**
- No website or ecom store needed
- No email list required to start

90% Hands-Off Formula To A Highly Profitable Income Online

The money usually stops after you clock out when you work a typical 9-5. With **passive online income** you can set up automated software that runs in the background and generates thousands of dollars while you are NOT at work.

**Your business
needs to
produce **passive
cash flow****

Let's say something drastic has happened or an emergency puts you out of work. A **passive income** will work in the background while you're away. It makes money even while you are out at the park, walking the dog, or spending time with the family.

THIS IS WHY PASSIVE INCOME IS SO POWERFUL!

With freelance digital marketing people already **WANT TO BUY** the products and services you're offering. All you do is tap in and be the middleman, earning as much as 50% of whatever the customers spend.

Aim For High-Ticket Products

High-ticket is usually anything around \$1000 or higher. And your business NEEDS this income stream to 10X your results making you MORE money with the same effort.

It takes the same amount of work to sell a \$50 product as it does a \$1000 product online. So why not run automation to higher ticket products? It's much easier to have one person buy a \$2500 product than to produce 50 sales of a \$50 product. **See how it works?**

**Your business
needs high ticket
products of
\$1000 or more!**

You can now see how generating a couple of \$1000 high-ticket sales in a month could impact your life. And all you did was attract people that already wanted the products, and then the company handled the rest!

**This is my “Secret Formula” on how I went
from \$0 to \$100,000 in just seven months!**

How Digital Marketing Works

Companies want to pay YOU to promote their products. This can be physical or digital. After you join a company they provide an affiliate link. And when someone clicks the link, you make money.

Now we know how profitable Freelance Digital Marketing is and how we can earn MORE by putting in LESS time let's talk about what makes it even more successful...

Step 2

“Do the work one time and get paid over and over for years to come”

Your business needs **Automation**

Automation is the golden key to a **true hands-off business**. We only need to do the work ONE time and the software handles the rest. Every person that enters your funnel will be guided through a sales system on complete autopilot.

Automation is the golden key to a true hands-off business. We only need to do the work ONE time and the software handles the rest. Every person that enters your funnel will be guided through a sales system on complete autopilot.

Before turning on this machine, we must first find a company and product we genuinely believe in. This way, when you make a recommendation, you can really feel great about it. More on which company to choose later on.

The Automated Funnel

A funnel is a new type of website designed to convert leads into sales, unlike typical old and outdated websites. A funnel is designed to guide your customers through a strategic passage that eventually results in a purchase!

The Funnel is another critical part of success with automation

First there is awareness and then prospects build interest about your brand or product. They will make a decision and then **take action and buy!**

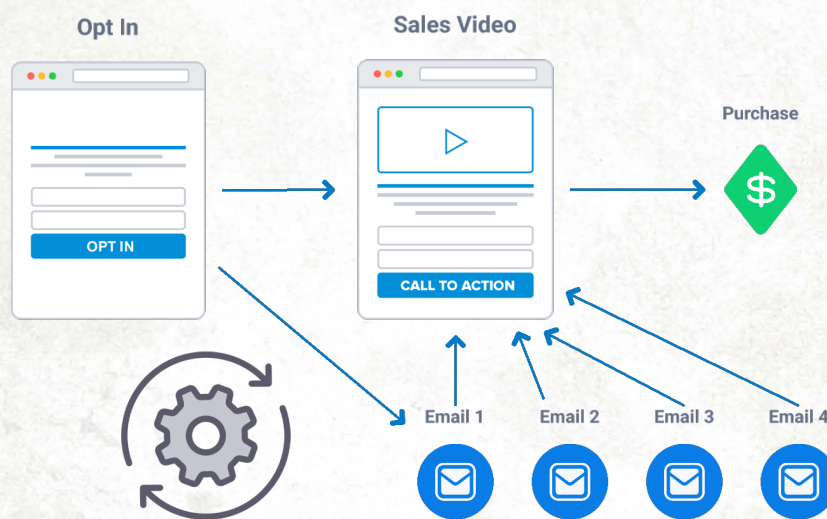

Funnels work incredibly well because it keeps the potential customer focused on one thing at a time without distractions. The result is highly effective and in return brings **more sales to you!**

The Followup System

Even though the funnel does an incredible job at generating sales on autopilot, you will also have visitors and guests that do not buy the first time. This is when the Autoresponder is initiated and works for you in the background.

**Your business
needs **email
automation****

A sequence of follow-up emails are sent out with every lead through automation. Most areas of concern will be handled during this time. **There are no emails to write over and over** because the autoresponder will send them out for you!

Every email collected is stored in a database you own and you can sell even more products they need later on. This is how you can also maximize the lifetime value of all your customers!

Step 3

Choosing the Right Offer

The offer can be a product or service that is offered to your potential customer. But how do we know which offer to promote?

You'll find high-ticket and low-ticket offers to promote. To maximize your results you **MUST** choose a high-ticket offer.

Find a high-ticket partner that pays \$1000 commissions or more

Because it takes the same effort to sell a high-ticket offer as a low-ticket one, you can make MORE money with the same marketing efforts.

You Just Earned A New Commission!

You have just earned a new commission from a sale inside of the [redacted] System!

Their Name: [redacted]
Their Email: [redacted]
Their Phone: [redacted]
Product Purchased: [redacted]
Commission Earned: \$1,000.00

For example, let's assume you have a \$50 offer. To earn \$100k over the next ninety days you will need 2000 sales. What if you instead had a \$1000 offer? To earn \$100k in the same 90 days you would only need 100 sales. You don't need anywhere near the same amount of clients and customers. This makes high-ticket the best choice when it comes to building and scaling your business to 6 and 7 figures and beyond!

The Value Ladder

This is another MUST that should be built into every high-ticket offer. The value ladder usually starts with something small and easy to sell to build some initial trust with the brand. As the client moves up the ladder they are introduced to more offers increasing in value and price. This is extremely effective and also completely automated and it does all the selling for you!

You need a **Value Ladder to have a highly profitable digital marketing business**
